PROFILE

I have over 5 years of management consulting, 2 years of product management experience and I have been developing full Stack projects for over 6 months. I am currently seeking opportunities where I can put my skills to good use and improve my problem-solving abilities. I have a love for learning new skills, and enjoy working on teams.

FLASK	BOOTSTRAP

HOBBIES

Reading | Running | Biking | Ping Pong

EXPERIENCE

Digital Crafts, Developer in Residence
SEPT 2016 - PRESENT

AirNavAtl : An app to navigate inside of Atlanta airport
- Created using Python, AngularJS, PostGreSQL & Leaflet API
- Used Dijkstra's algorithm to find the shortest path
- Mainly contributed in backend and api generation
- Demo available at: https://airnavatl.com

TripGoalie : An app to facilitate safe travel on MARTA
- Participated in a 24 hour MARTA hosted hackathon for nonprofits
- Developed using Python, Flask, Jinja 2 and PostGreSQL
- Designed and developed complete backend with one other developer
- Demo available at: http://tripgoalie.com

Fabulari : Speech modeling app for kids with disabilities
- Developed using AngularJS, MongoDB, Express and Node.js
- Contributed to database schema design and backend APIs and helped build AngularJS logic on the front end
- Demo available at: http://fabulari.org

Grillber : A rental service for Big Green Eggs
- Developed using Python, Flask, Jinja 2 and PostGreSQL
- Contributed to database schema design, backend logic and implemented stripe
- Demo available at: http://grillber.com

Realization, Product Manager / Strategy Consultant
SEPT 2008 - SEPT 2016

Product Manager, Concerto (2014 - 2016)
- Responsible for coming up with new features to be developed
- Created user stories and prioritized development queues
- Interfaced with UI/UX designers for wireframes and design approval
- Interfaced with stakeholders to gather requirements and the direction of the product
- Created user stories for developers and snippets on product updates for marketing
- Created product demos for use in the field for sales team

Management Strategy Consultant (2008 - 2014)
- Developed and implemented strategies and processes to improve project deliveries in multiple industries
- Trained consultants on data gathering, data analysis and client investigations on site
- Accompanied sales directors to answer any technical questions on the product
